Property Location: Property located at the southwest corner of the intersection of Loop 410 West and Ray Ellison Blvd

Proposal: To create a subdivision on approximately 355 acres that includes single-family residential, multi-family residential and commercial uses

Neighborhood Association: People Active in Community Efforts (PACE)

Neighborhood Plan: None. (United Southwest Communities Plan is in progress)

TIA Statement: A Level Three (3) Traffic Impact Analysis is required

Staff Recommendation:

Approval.

The proposed zoning scenario integrates a variety of residential styles and may promote a more sustainable neighborhood by providing a mix of residential and commercial uses to accommodate a range of service, shopping, and housing needs. The proximity to the Covel Gardens Landfill should be mitigated by the presence of a 250 acre buffer around the perimeter of the landfill. The portion of the landfill closest to the proposed development has been capped and any expansion will occur westward. Ray Ellison is a major arterial and should adequately accommodate commercial trucks and local traffic as to be determined by the traffic impact analysis (TIA).
